Portfolio Wrap Explained

Portfolio Wrap allows you to manage all your investments in the one account through which you can buy and sell shares and managed funds at wholesale rates and borrow to invest. It is designed to provide you with accurate and comprehensive reporting for all your portfolio investments.

Morgan Stanley Wealth Management has designed the service to assist you to keep track of your investments and their impact on your wealth creation strategy, while at the same time allows you to control your investment choices in conjunction with your financial adviser.

Portfolio Wrap enables you to monitor the performance of your portfolio through a central reporting package. You have access to comprehensive quarterly portfolio reporting, including performance reporting and consolidated tax reporting at year end. This reporting functionality assists you in making

informed investment decisions, while the day to day record keeping of your portfolio is taken care of on your behalf.

Online reporting is available via a secure internet page accessible from the Morgan Stanley Wealth Management website at www.morganstanley.com.au.

You will also have access to research material, market news and other valuable investment tools via the website.

In addition to the comprehensive reporting functionality, Portfolio Wrap also allows you to add on an optional Portfolio Administration Service. The administration requirements associated

This can be a distraction from your principal investment decisions. The Portfolio Administration Service takes care of the administration requirements relating to your portfolio, (other than your managed funds in the Managed Funds Portfolio Service) including, among other things, the collection of dividends, placement of corporate actions and handling of investor correspondence.

With your reporting and administration requirements taken care of for you, you will have more time to work with your financial adviser and develop a wealth creation strategy to help you achieve your financial goals.

ADVICE

If you have an ongoing fee arrangement with us, you will receive an annual portfolio review where your financial adviser will contact you to review your investment portfolio and plan for the upcoming year, taking into consideration your financial requirements, investment and lifestyle objectives.

Portfolio Administration Service

Portfolio Wrap allows you to add on a Portfolio Administration Service. This portfolio administration function is an additional service within Portfolio Wrap.

This service means that you are relieved from the receipt of paperwork (examples below) relating to your investments and from the time consuming process

of responding to this paperwork. The investments held within your portfolio, other than the managed funds held in the Managed Funds Portfolio Service, continue to be held in your name and the Portfolio Administration Service simply handles, on your behalf, the management of the paperwork associated with your portfolio.

The Portfolio Administration Service includes the following key service benefits:

DIVIDENDS AND DISTRIBUTIONS

Upon the purchase or transfer of an asset to Portfolio Wrap, an instruction will be provided to the share registry with regard to your preference for receiving income. Any income from listed securities can be directly credited to your Cash Account linked to Portfolio Wrap or in the case of listed securities reinvested, where a dividend reinvestment program is offered.

DIVIDEND AND DISTRIBUTION RECONCILIATION

At the end of every month a reconciliation will be conducted of your portfolio to ensure that all income in relation to your portfolio has been correctly credited to your Cash Account or reinvested.

CORPORATE ACTIONS

When companies have corporate actions such as rights issues or bonus share plans, your financial adviser will contact you as required to request your instructions. Upon receipt of these instructions, advice will be provided to the share registry together with the completed paperwork. You will generally not be able to participate in corporate actions relating to your managed funds.

STORAGE OF PAPERWORK

The paperwork relating to your portfolio will be stored securely and will be available should you require any relevant documentation for a specific purpose. The storage of your paperwork will be for at least seven years from the date of issue and will assist you in complying with your requirements as a taxpayer to retain taxation records.

The portfolio administration function is an additional service provided within Portfolio Wrap. To facilitate the management of this function on your

behalf you will need to complete and sign the Appointment and Authorisation of Portfolio Administrator form provided to you by your financial adviser. Please note that concise annual reports and notices of shareholder meetings and voting papers in respect of any of your eligible assets held within Portfolio Wrap will not be retained or provided to you.

For further information in relation to the Portfolio Administration Service, please consult with your financial adviser.

Margin Lending

A margin lending facility is simply a line of credit (much like an overdraft), which is secured by shares, managed funds or cash (known as “security” or “collateral”). This means that by using shares, managed funds or cash as security, you can use borrowed funds to increase your investment exposure.

A Morgan Stanley Wealth Management margin lending facility will allow you to borrow funds for investment purposes. However, as with any investment loan, investing through margin lending involves risk. Although borrowing to increase your investment may potentially increase your returns, it may also potentially magnify your losses.

Therefore, we strongly recommend that, before you establish a Morgan Stanley Wealth Management margin lending facility, you speak to your financial adviser to determine the suitability of margin lending for you and the risks associated with margin lending. You should also read and understand the terms and conditions and any disclosure documents applicable to Morgan Stanley margin lending. Your financial adviser can provide these documents to you.

If you do decide to establish a Morgan Stanley Wealth Management margin lending facility you may also use Portfolio Wrap’s reporting package. The reporting package will capture the relevant details from your Morgan Stanley Wealth Management margin lending account, including the loan balance, interest charges, loan draw-downs and repayments.

For further information in relation to Morgan Stanley Wealth Management’s margin lending facility, including the level of borrowing permitted for specific

securities, please consult with your financial adviser.

Fees and Charges

The total fees and charges payable will include the costs of Portfolio Wrap as well as the costs of any managed funds you choose.

It is important to understand the fees specifically applicable to any investment you choose, and that those fees are in addition to the fees charged by Morgan Stanley Wealth Management for Portfolio Wrap.

The costs associated with the managed funds or Cash Account you choose will generally be set out in the PDS for those financial products.

COSTS OF PORTFOLIO WRAP

Fees and charges payable in relation to Portfolio Wrap comprise:

ADVISER FEE

The Adviser Fee is the amount you pay to Morgan Stanley Wealth Management for the services provided by your financial adviser. The fee is a flat monthly charge or an asset based fee and is charged monthly in arrears. Where your investment portfolio is funded in part or in whole by a margin loan or any other form of credit facility, an asset based fee arrangement cannot be used. Asset based fees are calculated based on the average daily value of eligible assets, including your cash holdings, of your account or household against a fee schedule. A household comprises your Portfolio Wrap account and any qualifying accounts of your spouse, dependents, and entities which you, your spouse or your dependents control, including superannuation accounts.

Adviser Fees can be charged in any of the following formats:

- Tiered percentages
- Flat percentage
- Flat dollar amount.

The format of the Adviser Fee for your Portfolio Wrap account(s) will be agreed with your financial adviser.

ADMINISTRATION FEE

An Administration Fee of \$1,650 p.a. (including GST) is payable on your Portfolio Wrap Account. If you elect to include the Portfolio Administration

Service then the Administration Fee is \$2,310 p.a. (including GST). The Administration Fee is payable monthly in arrears.

ACCOUNT MAINTENANCE FEE

Where the assets in your account are below the \$1m threshold at point of assessment, we may charge you an Account Maintenance Fee of \$3,498 p.a. (including GST) to help cover the costs of operating your account, including adherence to regulatory standards. Where your account is part of a household, we will assess the threshold against the aggregate assets of your household and apply the Account Maintenance Fee only once for that household. This fee will be charged on a bi-annual basis in arrears.

BROKERAGE

Brokerage is an amount you pay Morgan Stanley for entering into transactions for you in relation to financial products and forms part of the total consideration you pay or receive in relation to the transaction. Morgan Stanley brokerage is calculated as a flat dollar amount or as a percentage of the value of the transaction and may include a minimum fee. Brokerage rates generally range from nil to 2% (excluding GST) of the value of the transaction and may vary depending on the type of financial product to which the transaction relates. You will be advised of the specific brokerage rates applicable to you when you open an account with us and of any changes to our brokerage rates from time to time.

COSTS OF INVESTING IN MANAGED FUNDS

The managed funds you invest in have their own fees and charges. Details of the fees can be found in the PDS for each managed fund.

MANAGED FUND ONGOING FEES. Each managed fund has ongoing management fees and charges. The ongoing fees are usually expressed as an Indirect Cost Ratio (“ICR”) as a percentage per annum of the average value of the fund over the year. The ICR is calculated for each financial year.

TRANSACTION COSTS. Some managed funds have a difference between their entry and exit prices - which is an allowance for the transaction costs of buying and selling assets in the managed fund.

Adviser Fee Tiered Percentages

The Adviser Fee is charged as a tiered percentage. Asset based fees are calculated based on the average daily value of eligible assets, including your cash holdings, of your account as detailed below:

Sample Tiered Percentages	% PA inclusive GST
First \$1,000,000	2.20
\$1,000,001 to \$5,000,000	1.65
\$5,000,001 to \$10,000,000	1.10
\$10,000,001 and above	0.77

Adviser Fee Tiered Percentage Fee Example

Assume a \$6,000,000 account being charged at the tiered percentage rates described above:

Tiered Percentage Fee Example		
First \$1,000,000	2.2%	\$22,000
Next \$4,000,000	1.65%	\$66,000
Last \$1,000,000	1.1%	\$11,000
Total balance = \$6,000,000	Admin Service Fee	\$2,310
Total Fee		\$101,310

*All fees quoted are inclusive of GST.

Adviser Fee Flat Percentage Example

A flat percentage fee is where the same percentage fee is charged for all assets within the portfolio. The percentage rate will be the same irrespective of the size of the portfolio.

Flat Dollar Amount Fee Example

Total Fee		\$101,310

*All fees quoted are inclusive of GST.

ENTRY AND EXIT FEES AND TRANSFER FEES.

Entry or exit fees are not charged by a fund manager when you invest in a managed fund through the Managed Funds Portfolio Service. However, where an investor transfers an interest in managed funds into or from their portfolio, Morgan Stanley Wealth Management will be charged a fee by Clearstream for the transfer. Morgan Stanley Wealth Management may pass this transfer fee onto you, together with any applicable government and statutory charges for the transfer.

OTHER FEES

STATUTORY FEES AND CHARGES.

Statutory fees and charges such as government taxes (e.g. GST, capital gains tax, financial institutions duty ("FID"), Exchange Fees, Personal Property Securities Register Registration Fee (if applicable)) related to the arrangement of your portfolio are payable by you.

CLEARSTREAM ADMINISTRATION FEE.

Any interest earned on money held on your behalf in a Transaction Trust Account is retained by Clearstream as a fee for administering that Transaction Trust Account.

Cash balances in your Transaction Trust Account are normally swept to your cash account daily.

COSTS OF YOUR CASH ACCOUNT

There are no transactional or account keeping fees in relation to your Cash Account. However, you will be responsible for any applicable government charges or taxes. You will be entitled to interest earned on your Cash Account.

An ongoing commission of up to 0.35% p.a., based upon the average monthly balance of the Cash Account, is payable monthly to Morgan Stanley Wealth Management by the provider of the Cash Account. For example, if your average monthly balance in your cash management account is \$10,000, the issuer will pay up to \$35.00 p.a. to Morgan Stanley Wealth Management.

SEE EXAMPLES

To illustrate how fees may be charged we have provided a number of examples. These are for illustration purposes only and assume no brokerage is charged and the Portfolio Administration Service has been selected.

FEES RECEIVED FROM OTHER PARTIES

Clearstream may receive a fee from fund managers and other financial product providers in relation to the Managed Funds Portfolio Service. Any amounts received may be based on the amounts invested or other factors. Clearstream will pass on all of the fees received to you.

Risks and Taxation

Portfolio Wrap offers a wide range of investment options to meet different risk and return expectations.

ALL INVESTING INVOLVES RISK

It is important to note that all investments involve varying degrees of risk. The most apparent risk is that investment holdings may not perform in accordance with your expectations and/or you suffer a loss.

There are many factors beyond the control of investors that may affect the return of capital and/or return on the invested capital. Each investment in each asset class is exposed to different and/or varying levels of risk, which will include one or more of the following:

MARKET RISK. The performance of investment markets are affected by the economic climate, regulatory changes, as well as consumer and investor sentiment.

SPECIFIC ASSET RISK. Each specific investment in each asset class, is subject to its own specific risks relating to its operations and business activities undertaken in the industry, market and geographic area within which it operates.

INTEREST RATE RISK. This can affect the return on fixed interest investments and can also have a direct or indirect impact upon the value and return of other investments, particularly those that rely upon borrowings to fund their activities.

CREDIT RISK. The risk of loss arising from the failure of another party to meet their obligations. Additionally, the price of securities may be negatively impacted by any changes in the credit rating of the underlying companies.

Once you have taken these factors into account, you and your financial adviser can choose the investment strategy that suits your risk/return profile and helps you achieve your goals.

DIVERSIFICATION

One of the best ways to help manage risk is to diversify your investments. Diversification means spreading your investments across:

- a range of asset classes including shares, property, fixed interest and cash investments
- a number of different securities (in different regions or sectors) or fund managers (with different investment styles), and
- both local and overseas investments.

Diversification may help reduce the risk because it minimises the impact of poorly performing asset sectors, while allowing you to benefit from sectors that are performing well. So by spreading your investments you can help reduce the extremes in performance and reduce risk.

OTHER RISKS

The PDS or other disclosure documents for each managed fund will outline the risks associated with that investment. Your financial adviser will be able to help you assess your risk tolerance and endeavour to ensure your investment choices meet your individual investment objectives, financial situation and needs.

If you invest in derivative products such as warrants and options, you should be aware of the specific risks involved in these products before making an investment decision. Before you make any decision to use options in your portfolio we require you to read the Options PDS, available from your financial adviser, and the ASX publication, “**Understanding Options Trading**”, so that you can understand the complexity of these instruments.

If you use a margin loan you should understand that gearing, while increasing your potential for returns, can also increase the size of losses. For further details of the risks you should refer to the Margin Lending PDS.

TAXATION

Any investment decision you make may have tax consequences and may also have social security and stamp duty consequences. The impact depends on your individual circumstances. You are responsible for all such consequences of dealing with your assets.

Generally, each financial year you are liable to pay tax on any capital gains arising on disposal of your investments, interest, distributions, dividends or other income from your investments (even if reinvested). You may be entitled to some rebates or tax credits.

We recommend that you seek taxation advice appropriate to your circumstances before you transact in any assets using Portfolio Wrap.

Collection of a Tax File Number (“TFN”) is authorised and the use and disclosure is strictly regulated by taxation laws and the Privacy Act 1988 (Cth). Quotation of a TFN is not compulsory but tax may be taken out of your distributions, dividends and interest earned at the highest marginal tax rate plus the Medicare levy if you do not quote your TFN or claim an exemption. By quoting your TFN you authorise Morgan Stanley Wealth Management, Clearstream and the Portfolio Administrator to apply your TFN for investments acquired by you.

If you provide your TFN, Morgan Stanley Wealth Management as sponsoring broker, will lodge your TFN with share registries on your behalf.

If you are not an Australian resident for tax purposes, then interest, dividends and distributions that are paid to you from an Australian source may be subject to withholding tax. You are subject to the tax laws of your country of residence and should obtain tax advice before investing.

Frequently Asked Questions

Q. What are the benefits of Portfolio Wrap?

A. Portfolio Wrap may suit investors who do not have the time or inclination to personally manage or administer their investment portfolio.

The benefits to using Portfolio Wrap include:

- the flexibility of selecting the assets that you would like recorded and reported;
- the ability to hold your investments in a centralised portfolio facility and control the investment decisions in conjunction with the financial adviser;
- comprehensive reporting across all assets; and
- concise tax reporting at year end.

Q. Do I have to use the Portfolio Administration Service?

A. No, if you would prefer to receive the correspondence concerning your investments, including corporate action advices and dividend statements, then you would simply select Portfolio Wrap without the Portfolio Administration Service when completing the Portfolio Wrap application form. This would then allow you to receive the mail concerning your investments while at the same time still access the comprehensive reporting function provided by Portfolio Wrap. However, the issuers of your managed fund investments held through the Managed Funds Portfolio Service will not distribute mail to you as the investments are held in a pooled

custodial facility. The information on these investments however, will form part of Portfolio Wrap reporting.

Q. What is the minimum account size needed to commence a Portfolio Wrap account?

A. In order to commence a Portfolio Wrap account you need at least \$100,000 in eligible assets.

Q. How does Portfolio Wrap differ from a traditional broking account?

A traditional broking account does not generally provide you with any portfolio reporting or administration services and will incur full brokerage fees each time an investment is made.

Q. Are the ongoing fees applicable under Portfolio Wrap deductible?

A. Please speak to your tax professional.

Q. Is there a restriction on the type of assets that can be held within Portfolio Wrap?

A. The only restriction on the type of asset that can be held relates to the reporting functionality of Portfolio Wrap. For example, unlisted assets such as property or unlisted fixed interest will not be captured automatically for reporting purposes but can be incorporated manually in the reports where you provide valuations of these assets to your financial adviser. For a complete list of eligible assets please refer to your financial adviser.

Q. Can I use Portfolio Wrap to manage my self managed superannuation fund’s assets?

A. Yes, a self managed superannuation fund can use Portfolio Wrap to manage its assets.

Morgan Stanley Wealth Management can also facilitate the establishment and ongoing management of self managed superannuation funds, including the preparation of the annual accounts for the self managed superannuation fund.

It also gives you access to wholesale priced managed funds which are not usually available to individual investors. All managed funds you acquire through the Managed Funds Portfolio Service are held on trust for you by Clearstream or its Sub-Custodian.

Before investing through the Managed Funds Portfolio Service, you should read this Financial Services Guide and IDPS Guide ("Guide") carefully. Words with special meanings are defined in the Glossary.

Clearstream is not responsible for the content of these other documents.

Clearstream does not provide any advice or recommendations about the investments available through the Managed Funds Portfolio Service and is not responsible for any other part of Portfolio Wrap. This Guide contains general financial product advice only. Clearstream is not aware of your objectives, financial situation or needs and has not taken those matters into account in preparing this Guide. Before acting on any advice in this Guide, you should consider whether it is appropriate to your objectives, financial situation and needs.

If you agree to use the Managed Funds Portfolio Service, this Guide, the Application Form you sign and the IDPS Contract together form your agreement with Clearstream. The current Guide and IDPS Contract for the Managed Funds Portfolio Service are available from Clearstream free of charge.

- Companies;
- Partnerships;
- Trusts (including self managed superannuation funds or estates); or
- Associations

can invest in the Managed Funds Portfolio Service.

The Managed Funds Portfolio Service is only available to Australian residents for tax purposes. You must notify Clearstream if you no longer are an Australian resident for tax purposes. In these circumstances, you will be required to sell your investments and close your Managed Funds Portfolio Service account.

OPENING YOUR MANAGED FUNDS PORTFOLIO SERVICE ACCOUNT

Once you and Morgan Stanley Wealth Management have determined the Managed Funds Portfolio Service is appropriate to your needs, to open your account you need to complete the Application Form. Your financial adviser can provide you a copy of the Portfolio Wrap Application Form. All signatories on the account will also need to provide proof of their identity. Morgan Stanley Wealth Management will assist you to complete this form and will lodge it with Clearstream on your behalf.

You may also be able to transfer your existing managed funds into the Managed Funds Portfolio Service (see next page section titled 'Transfers' for further information).

When you apply for Portfolio Wrap and agree to use the Managed Funds Portfolio Service, you will specifically authorise Morgan Stanley Wealth Management, as your agent, to provide Clearstream with personal information which they have collected from you or otherwise already holds about you in its records, including your full name, residential address, TFN or ABN, for the purposes of

providing you with the Managed Funds Portfolio Service.

Clearstream will use this information to open and administer your Managed Funds Portfolio Service account, to deduct tax on your income when it is required to do so correctly, and to contact you if necessary.

UNITED STATES CITIZENS

If you identify yourself as a United States citizen or United States resident for tax purposes, we will be obliged to notify the Australian Tax Office ("ATO") which may, in turn, notify the United States tax authority ("IRS"). Should your residency or citizenship status change at any time, please notify your Morgan Stanley financial adviser.

Operating Your Managed Funds Portfolio Service

PAYMENTS

When using the Managed Funds Portfolio Service you will make and receive payments from your Cash Account in relation to your managed funds investments, in the same way as for your other investments through Portfolio Wrap.

When you buy an investment through the Managed Funds Portfolio Service, Morgan Stanley Wealth Management will make the necessary funds available to Clearstream from your Cash Account.

At the appropriate time, the funds will be transferred to Clearstream and held in a Transaction Trust Account pending payment to the fund manager. When you sell an investment or receive distributions in cash, the proceeds will be deposited by the relevant fund manager into a Transaction Trust Account and then transferred by Clearstream to a Morgan Stanley Wealth Management trust account. Morgan Stanley Wealth Management will then transfer the proceeds to your Cash Account (see the section titled 'Your instructions' on page 15 for further information).

Any interest earned on money held on your behalf in a Transaction Trust Account will be retained by Clearstream as a fee for administering that account.

Investing

The Managed Funds Portfolio Service offers you an extensive range of managed funds.

The majority of managed funds offered through the Managed Funds Portfolio Service are wholesale-priced managed funds. This means that you can benefit by accessing investments that have lower fees but that may not be available to retail investors because they have high minimum investment levels.

Before investing in a managed fund through the Managed Funds Portfolio Service, you must read the managed fund's PDS which will assist you in determining whether the investment is appropriate for you (Morgan Stanley Wealth Management will give the PDS to you).

HOW TO BUY INVESTMENTS

The managed funds available through the Managed Funds Portfolio Service are listed in the Managed Funds Portfolio Service Product List ("Product List"), which is regularly updated. Morgan Stanley Wealth Management can help you to choose your investments. The minimum investment is currently \$1,000 per managed fund, but Clearstream may vary the minimum investment amount in the future by giving you at least 30 days prior written notice.

The Product List is available from Morgan Stanley Wealth Management or from Clearstream without charge.

When you instruct Morgan Stanley Wealth Management, it will then instruct Clearstream to carry out your instruction on your behalf.

SELECTING INVESTMENT OPTIONS

The managed funds offered through the Service are regularly reviewed by experienced investment professionals and fund rating agencies. A number of factors are taken into consideration when we choose the investment options for the managed funds offered through the Service. These include the performance of the investment option, the investment objective, fees, external research ratings and how easy the investment option is to administer. The selection of investment options recommended by Morgan Stanley Wealth Management is done on an arm's length basis to any fund manager.

HOW TO SELL INVESTMENTS

Morgan Stanley Wealth Management can help you choose the managed funds in your managed funds portfolio you want to sell. Morgan Stanley Wealth Management will instruct Clearstream to carry out your instructions on your behalf. The minimum withdrawal is currently \$1,000 per managed fund unless your request relates to your entire holding in the relevant managed fund. Clearstream may vary the minimum amount in the future by giving you at least 30 days prior written notice.

Once Clearstream receives the proceeds from the sale of your managed funds into the Transaction Trust Account and such funds are reconciled, the proceeds will be deposited into your Cash Account via the Morgan Stanley Wealth Management trust account. Note that the time taken by fund managers to process withdrawal requests can vary. For details on timing refer to the relevant fund's PDS.

Transfers

If you want to transfer managed funds that you already own into the Managed Funds Portfolio Service, you need to contact Morgan Stanley Wealth Management to see if this is possible. Whether they can be transferred will depend on whether the managed fund is available through the Managed Funds Portfolio Service and if the fund manager will permit the transfer. Transfer fees, statutory and government charges such as stamp duty may apply.

You need to be aware that if you want to transfer out managed funds you purchase through the Managed Funds Portfolio Service, you may need to satisfy certain requirements of the managed fund, such as minimum holdings.

Transfers may have tax implications which you should carefully consider with a qualified professional such as an accountant or financial adviser.

Processing Your Instructions and Possible Restrictions

Clearstream processes your instructions from Morgan Stanley Wealth Management as soon as possible. If Clearstream receives both your completed investment or withdrawal instructions, and in the case of an investment, has identified and processed

your clear funds for that application by 10am (AEST) on a Business Day, generally the instructions will be sent to the fund manager on the same day. If Clearstream receives your completed investment or withdrawal instructions after 10am (AEST) on a Business Day, generally the instructions will be sent to the fund manager on the next Business Day.

From time to time, processing your investment instructions may be delayed. For example, where the fund manager does not calculate unit prices daily, it may take longer for Clearstream to process your transactions. Neither Morgan Stanley Wealth Management nor Clearstream are responsible for delays in fund managers processing investments and withdrawals.

Funds to pay for purchases of your managed funds will normally be deducted from your Cash Account on the day that Morgan Stanley Wealth Management sends your investment instruction to Clearstream. If you wish to make a purchase and you do not have sufficient cleared funds in your Cash Account, the transaction will be delayed until cleared funds are available and sent to Clearstream.

There may also be times that Clearstream might not be able to process your investment or withdrawal instructions, for example when:

- there are liquidity issues in the investment;
- the fund manager suspends transactions;
- a listed investment is under administration, is suspended or delisted;
- Clearstream cannot obtain a price; or
- the instruction is incomplete or ambiguous.

How Your Investments are Valued

The value of your managed fund investments are based upon the redemption unit prices as provided by the fund managers and the number of units you hold in each managed fund investment. Unit prices are generally provided daily however there may be times when Clearstream does not receive updated prices. This may occur when the relevant fund issues a unit price less frequently (e.g. monthly) or when shares are delisted or assets cannot be valued.

Other information

Statutory Rights

You may not have the same statutory rights as a direct investor to cancel your investment and receive a full refund if the PDS for an investment option was misleading at the time you invested. However, in such a case you may still have other compensation rights against the investment manager.

Sell investments

Clearstream may sell investments on your behalf, such as when we need to recoup fees and costs owing on your account

Allocation of units

There may be occasions where Clearstream or your financial adviser receive an allocation of units via a placement or priority offer from an institution. The allocation may not relate to any particular investor. We may extend such offers to particular investors in the Service but are not required to do so.

- you do not have sufficient units in the managed fund or cleared funds in your Cash Account for Clearstream to carry out your instructions;
- your instructions conflict with the law, relevant market practices or the terms of the Clearstream Agreement;
- you cease to be a client of Morgan Stanley Wealth Management;
- Clearstream wishes to suspend providing the Managed Funds Portfolio Service (for example, to enable Clearstream to perform maintenance or other work on Clearstream's systems). Clearstream will provide you with reasonable notice prior to suspending the service;
- Clearstream wishes to cease providing the Managed Funds Portfolio Service; or
- Clearstream decides to stop accepting investments into particular managed

funds, including funds in which you have an existing holding.

When Clearstream can Sell Your Investments Without Your Specific Instructions

Only in a limited number of circumstances would Clearstream sell some or all of your investments without receiving the usual instruction from you through Morgan Stanley Wealth Management. You irrevocably instruct Clearstream to sell your investments in the following circumstances:

- if you do anything which suggests you can't satisfy the Managed Funds Portfolio Service requirements when required;
- if Clearstream decides to stop offering the Managed Funds Portfolio Service, Clearstream can sell your investments as one option available to Clearstream

for closing your Managed Funds Portfolio Service;

- if you cease to be a client of Morgan Stanley Wealth Management;
- if you have a liability to Clearstream, Clearstream can sell some or all of your investments to recover the amount of the liability, and pay you any remaining net proceeds after deducting the liability and Clearstream's costs of sale;
- if Clearstream decides to stop holding the relevant managed funds through the Managed Funds Portfolio Service; or
- if Clearstream is required to redeem your investment(s) under the law.

Clearstream will notify you before it takes any of the above actions.

Whenever investments are sold there are likely to be tax consequences and this includes when Clearstream sells them

without receiving the usual instruction. Clearstream will not be liable for any adverse tax or other consequences of selling your investments or from closing the Managed Funds Portfolio Service or your account.

Closing Your Managed Funds Portfolio Service Account

You can close your Managed Funds Portfolio Service account by instructing Clearstream or Morgan Stanley Wealth Management in writing. Prior to closing your account you will need to transfer or sell your investments in the Managed Funds Portfolio Service.

If you sell any investments, the net proceeds will be deposited into your Cash Account (via the Morgan Stanley Wealth Management trust account) as described above. If you wish to have the net proceeds paid to a different bank account, you must provide Clearstream with the new bank account details in writing (a fax or email is not sufficient) and that new bank account must be in the same name as your Managed Funds Portfolio Service account. Alternatively, you may instruct Clearstream to transfer the assets to you or to a person nominated by you in your notice (as long as any minimum requirements for the assets are met).

If you have investments in illiquid funds, you may not be able to close your account until such time as the fund manager permits you to redeem all your holdings or to transfer your holdings into your name or another service.

This Managed Funds Portfolio Service is only available to you through Morgan Stanley Wealth Management. If you change to another dealer or adviser who is not a representative of Morgan Stanley Wealth Management, or your dealer or adviser ceases to be a representative of Morgan Stanley Wealth Management, Clearstream may suspend or close your account. In this scenario Clearstream may either transfer your managed funds portfolio to another provider on your instructions, or transfer the holdings into your own name (subject to any conditions applied by the relevant fund manager). If Clearstream does not receive your instructions within a reasonable timeframe, Clearstream may close your account. In this case

you instruct Clearstream to sell your investments and transfer the proceeds into the Morgan Stanley Wealth Management trust account. Morgan Stanley Wealth Management will then transfer the proceeds to your Cash Account. Clearstream is not liable for any losses you incur as a result of any such sales or transfers. Please contact us if you would like a free copy of our policy on the consequences of not having a dealer or adviser who is as representative of Morgan Stanley Management.

Reporting

One of the key advantages of winvesting through the Managed Funds Portfolio Service is the benefit of consolidated reporting.

Clearstream provides information on your managed funds investments to Morgan Stanley Wealth Management. Morgan Stanley Wealth Management will provide you with consolidated reporting on your managed funds and other investments as part of Portfolio Wrap. Clearstream can also provide you with quarterly and annual reports as described below.

REPORTING BY CLEARSTREAM

Clearstream will provide Morgan Stanley Wealth Management with regular information on your managed fund investments (subject to periodic outages or down-time). This information will normally be current up to at least the previous two Business Days.

In addition, you also consent to Clearstream providing the following reports by email to Morgan Stanley Wealth Management as your agent:

- a quarterly report listing the transactions on your managed funds portfolio during the quarter, the quantity and value of investments in that portfolio at the end of the quarter, and your revenue and expenses in relation to the Managed Funds Portfolio Service during the quarter. The report will be provided to Morgan Stanley Wealth Management within one month of the end of each calendar quarter;
- an annual report within three months of the end of the financial year - detailing your managed funds portfolio value and giving a summary

of your managed fund transactions and income and expenses for the financial year, together with an annual independent auditor's report on Clearstream's internal controls and its annual and quarterly reports.

The reports may be attached to the email, or Clearstream may give Morgan Stanley Wealth Management access to a hypertext link through which Morgan Stanley Wealth Management can access your report. You agree that Clearstream may provide these reports in this manner.

This information enables Morgan Stanley Wealth Management to:

- deliver their Portfolio Administration Services to you insofar as they relate to your managed funds portfolio, which may include consolidated accounting, taxation, investment performance and management reporting and administration services;
- monitor your managed funds portfolio and to provide you with financial and investment advice.

You may request copies of any previous quarterly and annual reports (including the auditor's reports) by asking Clearstream or Morgan Stanley Wealth Management. Morgan Stanley Wealth Management will also provide you with assistance to reconcile the Clearstream reports with the reports provided to you by Morgan Stanley Wealth Management if you so request.

Corporate Actions

Unlike a direct investor in a managed fund, you will not automatically receive annual reports, other information and corporate actions from fund managers, as these are sent to Clearstream. Corporate Actions are requests to investors to make a decision regarding their investments, for example voting for a change in the constitution of a managed fund in which you have invested.

Clearstream will not normally seek instructions in relation to voting. Clearstream may however, vote without your instructions. If Clearstream does seek your voting instructions, Clearstream needs enough time to process them. Clearstream is not always obliged to follow your instructions.

Please contact us if you would like a free copy of our voting policy.

You can ask Clearstream for copies of all fund manager documentation that is required by law to be given to a direct investor (e.g. the audited financial statements of the managed fund) and Clearstream will provide this to you without charge.

Liability and Indemnities

LIABILITY

Clearstream will perform its functions honestly and with reasonable care and diligence and although Clearstream can ask others, such as the Sub-Custodian, to help, Clearstream is responsible for them and for any other person appointed by Clearstream to deliver the Managed Funds Portfolio Service to you.

Clearstream's liability to you is limited to the extent that any loss suffered by you is due to Clearstream's or its agents' fraud, dishonesty, wilful default or failure to act with reasonable care and diligence.

Clearstream is not responsible for your investment decisions, you are. Remember, if you lose money investing, you are responsible. It is important that you read the relevant PDS for each managed fund before you invest, and remember you can make losses as well as gains.

Clearstream is not responsible for the fund managers, and Clearstream is not responsible for the form and content of the PDS issued by fund managers.

Morgan Stanley Wealth Management is your agent.

Clearstream is not responsible for any error or delay in the provision of instructions to Clearstream and is not liable for acting reasonably on any instructions which contain any error or ambiguity.

Clearstream is not liable for any delays caused by Morgan Stanley Wealth Management in transferring monies to and from your Cash Account.

Clearstream is not obliged to verify the authenticity of documents, messages or instructions, unless Clearstream doubts the authenticity of the document, message or instruction. Clearstream is not liable in respect of anything done in reliance on any instruction given, or in

response to any request for information made, by a person Clearstream reasonably believes to be you or on your behalf, except to the extent caused by Clearstream's negligence, fraud or dishonesty.

INDEMNITIES

You indemnify Clearstream and its agents, for all expenses, losses or other liabilities incurred by Clearstream or Clearstream's agents in properly performing or exercising any of its powers or duties in relation to the Managed Funds Portfolio Service on your behalf. Your liability to Clearstream is not limited to the value of your Managed Funds Portfolio Service account.

Things to Consider About Investing

Before you decide to invest in the Managed Funds Portfolio Service, you need to consider the following:

- your investment goals;
- the savings you will need to reach your goals;
- how many years you have to invest;
- the returns you are expecting from your investments; and
- how comfortable you are with volatility.

Risks Associated with Investing

All investments carry a degree of risk. It is important that you understand these and how they may affect your investments.

INVESTMENT PERFORMANCE

The performance of investments will depend on such factors as the investments chosen, the prevailing market conditions and the state of domestic and international economies. The PDS for each of the managed funds you invest in should explain the risks associated with each managed fund. Neither Morgan Stanley Wealth Management nor Clearstream guarantee the performance, return or growth of any investment accessible through the Managed Funds Portfolio Service.

ADMINISTRATION

The Managed Funds Portfolio Service is dependent on computer systems and administrative processes. As with all

systems and processes there is a risk that these may fail or be interrupted. Such failure could cause delays in processing or reporting investments. Clearstream manages administration risks by having procedures in place that are designed to ensure that Clearstream's systems and processes work effectively. Clearstream is also dependent on the accuracy and efficiency of the administration and computer systems of the fund managers who operate the managed funds you invest in. They will have their own risk management procedures in place. Clearstream is not responsible for the acts or omissions of fund managers.

TIMING & DELAYS

Clearstream will use reasonable endeavours to process your instructions as soon as possible, but Clearstream is not responsible for delays, including delays caused by communications failure or processing by the fund manager or by minimum investment requirements imposed for a managed fund not being met.

Delays may also arise where, in Clearstream's opinion, your instructions are incomplete or unclear in relation to an investment in the Managed Funds Portfolio Service or an application to use the Managed Funds Portfolio Service. In those circumstances Clearstream may place all of the relevant investment in the Morgan Stanley Wealth Management trust account or the Transaction Trust Account while Clearstream seeks your instructions. Neither Morgan Stanley Wealth Management nor Clearstream are liable for any loss that may result from such delays occurring.

MANAGEMENT RISK

As your investments will be managed by fund managers there is a risk that the fund manager will not perform to expectation.

Fees and Charges

The total fees and charges you pay will include the costs of Portfolio Wrap as well as the costs of the managed funds investments you choose. It is important that you understand the fees of any investment you choose, and that those fees are in addition to the fees charged by Morgan Stanley Wealth Management for Portfolio

Wrap, together with transaction and account costs incurred on your behalf. The costs of the investments you choose will generally be set out in a disclosure document or PDS for the investments.

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities & Investments Commission (ASIC) website (moneysmart.gov.au) has an investment fee calculator to help you check out different fee options.

This IDPS Guide shows fees and other costs that you may be charged. These fees and costs may be deducted from your cash, from the returns on your investment or the Managed Funds Portfolio Service as a whole.

You should read all the information about fees and costs of the particular investment option you chose because it is important to understand their impact on your investment.

Fees and costs for particular investment options are set out in the investment manager’s Product Disclosure Statement which is available from your financial adviser.

All fees are shown inclusive of GST and net of Reduced Input Tax Credits (where applicable).

You may receive a tax deduction for fees charged to your account.

ADMINISTRATION FEE

The Administration Fee covers the cost of the Portfolio Wrap reporting platform and associated administrative services. An Administration Fee of \$1,650 p.a.

Adviser Fee Tiered Percentages

The Adviser Fee is charged as a tiered percentage. Asset based fees are calculated based on the average daily value of eligible assets, including your cash holdings, of your account as detailed below:

Sample Tiered Percentages	% PA inclusive GST
First \$1,000,000	2.20
\$1,000,001 to \$5,000,000	1.65
\$5,000,001 to \$10,000,000	1.10
\$10,000,001 and above	0.77

(including GST) is payable on your Portfolio Wrap Account. If you elect to include the Portfolio Administration Service then the Administration Fee is \$2,310 p.a. (including GST). The Administration Fee is payable monthly in arrears.

COST OF YOUR CASH ACCOUNT

There are no transactional or account keeping fees in relation to your Cash Account. However, you will be responsible for any applicable government charges or taxes. You will be entitled to interest earned on your Cash Account. An ongoing commission of up to 0.35% p.a., based upon the average monthly balance of the Cash Account, is payable monthly to Morgan Stanley Wealth Management by the provider of the Cash Account. For example, if your average monthly balance in your cash management account is \$10,000, the issuer will pay up to \$35.00 p.a. to Morgan Stanley Wealth Management.

COSTS OF THE MANAGED FUNDS PORTFOLIO SERVICE

The value of your managed funds portfolio is added to your other investments through Portfolio Wrap in calculating the fees you pay to Morgan Stanley Wealth Management. Clearstream does not charge you any fees for the Managed Funds Portfolio Service (other than the interest earned on the Transaction Trust Account, any benefits from netting and any reduced income tax credits (“RITC”) which it is entitled to retain). Instead, the value of your Managed Funds Portfolio Service account is added to your other investments through Portfolio Wrap

in calculating the fees you pay to Morgan Stanley Wealth Management.

The fees you pay to Morgan Stanley Wealth Management relevant to the Managed Funds Portfolio Service comprise of the Adviser Fee.

In addition, Morgan Stanley Wealth Management may pass on to you transfer fees relating to the transfer of managed funds into or out of your Managed Funds Portfolio Service account, together with any applicable government and statutory charges relating to such transfer.

Morgan Stanley Wealth Management may also charge other fees for services they provide to you in accordance with their arrangements with you. See Part 1 of this Investor Brochure for further details of the fees and charges payable to Morgan Stanley Wealth Management for Portfolio Wrap.

ADVISER FEE

The Adviser Fee is the amount you pay to Morgan Stanley Wealth Management for the services provided by your financial adviser. The fee is a flat monthly charge or an asset based fee and is charged monthly in arrears. Where your investment portfolio is funded in part or in whole by a margin loan or any other form of credit facility, an asset based fee arrangement cannot be used. Asset based fees are calculated based on the average daily value of eligible assets, including your cash holdings, of your account or household against a fee schedule. A household comprises your Portfolio Wrap account and any qualifying accounts of your spouse, dependents, and entities which you, your spouse

COSTS OF INVESTING IN MANAGED FUNDS

Each managed fund has ongoing management fees and charges. The ongoing fees are usually expressed as an Indirect Cost Ratio ("ICR") – as a percentage per annum of the average value of the fund over the year. The ICR is calculated for each financial year and is an ongoing fee. These fees will generally range from approximately 0.20%p.a. to 2.00%p.a. In addition, some fund

managers may charge performance fees typically based on the performance of the fund in excess of a benchmark. Again, these fees will be disclosed in the relevant fund's PDS.

TRANSACTION COSTS. Some managed funds have a difference between their entry and exit prices – commonly known as a buy/sell spread, which is an allowance for the transaction costs of buying and selling assets in the managed fund.

ENTRY AND EXIT FEES. Entry or exit fees are not charged by a fund manager when you invest in a managed fund through the Managed Funds Portfolio Service.

EXPENSES

Under the IDPS Contract, you agree to pay Clearstream for any expenses incurred in relation to your Managed Funds Portfolio Service account including audit fees, brokerage, bank fees, government charges, taxes, communication costs and adviser's fees (including the costs of legal, financial and tax advice). You agree that expenses are payable out of, and may be set off against, the assets in your Managed Funds Portfolio Service account. - Your right to request a copy of all communications that are required by law to be given to a direct investor and Clearstream's obligation to provide those communications to you;

ASSIGNMENT. You cannot assign or try to assign any of your rights or obligations under the Clearstream Agreement without Clearstream's prior written consent. Without this, any purported assignment is void.

GENERAL. If part of the Clearstream Agreement (or its application to any person or circumstance) is or becomes invalid or unenforceable, then the other provisions are not affected.

The Clearstream Agreement is governed by the laws in force in New South Wales.

READ DOWN CLAUSE. If any law making unfair contract terms void could apply to a term in the Clearstream Agreement, the following rules apply to interpreting that term.

(a) If the law would make the term void because the term permits Clearstream to exercise a right or discretion in a way or to an extent that would cause detriment to you, the term shall be read down and construed so as not to permit Clearstream to exercise the right or discretion in such a way or to such an extent but otherwise the term shall be construed as permitting Clearstream to exercise the right or discretion in all ways and to any extent consistent with the term.

(b) If the law would make the term void because the term imposed a particular amount for a fee or charge, the term shall be read down and construed as authorising the maximum amount for that fee or charge which would not cause the term to be void.

(c) If the law would make the term void because it authorised Clearstream to recover costs or losses or damages to be calculated by Clearstream in a specified way or in a way Clearstream chose, the term shall be read down and construed as authorising Clearstream to recover the

maximum reasonable costs, losses and damages to be calculated in a reasonable way that did not cause the term to be void.

(d) If, despite the application of rules (a), (b) and (c) above to the term, the law would make the term void, the term is to be read down and construed as if it were varied, to the minimum extent necessary, so that the term is not void.

These reading down rules apply before any other reading down or severance provision in the Clearstream Agreement.
